

How does Wildtree stack up against “organic” products?

DID YOU KNOW.....Per www.USDA.gov, products labeled ‘made with organic ingredients’ need only contain 70% of organic items. Products labeled “organic” under the USDA or Certified Organic label, must contain 95% organically produced ingredients.

We are proud that Wildtree products are never ‘partial’ quality!

Always the better choice, Wildtree is 100% all natural, 100% of the time!
